How it works

Flexible premium: Premium deposits to your Policy Value Account are based on your insurance needs and long-term savings goals, and can be adjusted at any time.

Tax advantages: Policy Value Account balance¹ earns tax-deferred interest, allowing accumulated money to grow faster than in many other savings vehicles.²

Cash value accumulation: Interest is earned at a competitive rate on your Policy Value Account balance, compounded daily, with a guaranteed minimum interest rate of 2.5%.

Combined death benefit: As your savings grow, your total death benefit automatically increases and is equal to the total of your insured amount plus your Policy Value Account balance, less any indebtedness.*

4 Reasons to apply for Term Plus Universal Life

1. Competitive interest rates
2. Exclusive ADA members reductions available
3. Flexible premiums
4. Automatically increasing death benefit (insured amount plus the balance of the Policy Value Account balance less any indebtedness)

ADA Term Plus Universal Life premiums for males

*Policy Value Account balance minus any indebtedness.

¹The cost of insurance, any applicable loan interest and an administrative fee of \$4.10 will be deducted monthly from the Policy Value Account.

²The interest rate is declared each January 1. Subject to the guaranteed minimum rate of 2.5%. Accumulates on a tax-deferred basis under current tax laws, which are subject to change.

³Premiums increase annually based on age, are effective as of 1/1/24 with a monthly billing frequency and include a 32% Premium Credit discount that shares favorable financial results with Plan participants. The Premium Credit discount is not guaranteed, but reevaluated periodically. An additional \$4.10 monthly service fee will be added to your cost of coverage. Renewal rates might be slightly lower than Term Life rates after age 70. Premiums are based on Attained Age, which is each participant's actual age beginning on the first day of the month following his or her birthday. If Attained Age changes during a billing period, rates are proportionately blended. Recommended premiums under the Term Plus Universal Life plan consist of an annually increasing cost of insurance, the additional premium amount chosen by the member for deposit into his/her Policy Value Account and a service charge. Waiver of Cost option allows all coverage to continue without premium payment if the insured member is totally disabled prior to age 60.

⁴Preferred rates are available to the healthiest individuals who have low-risk health and lifestyle characteristics. Your eligibility will be determined through medical underwriting. If the applicant does not qualify for Standard or Preferred rates, it may be possible to qualify for one of the two additional substandard rate classes.

Beginning at age 65, coverage amounts can no longer be increased, but coverage is renewable until age 90 subject to the terms of the policy. The accidental death option benefit reduces by 50% beginning at age 66 and terminates at age 76.
